AirBoss 100® Half Mask Respirator

Protect yourself and those around you with the NIOSH approved AirBoss 100® Half Mask Respirator. It's the next step forward in personal protective equipment (PPE) for healthcare workers, law enforcement, and first responders. The AirBoss 100® Half Mask is an easy-to-use, affordable, reusable mask that carries the protective power of the N100 filter, and its lightweight, comfortable design reduces discomfort from long-term respirator wear. The AirBoss 100® is proudly made in the USA.

An industry leader in two-way protection

The AirBoss 100® Half Mask is one of the first respirators to filter both inhalation and exhalation, offering N100 protection to the user and environment on every breath.

High-performance filtration

Our filters, integral to our NIOSH approved design, offer N100-level protection (>99.97% particulates) while providing excellent moisture management, clear voice transmission, and low breathing resistance.

Soft interior conforms to your face

Features a flexible nose cup for improved facial fit, a comfortable head harness, and low breathing resistance to help reduce discomfort from long-term respirator wear.

Visor attachment

An easily mounted visor accessory offers a broader level of protection for the user's face and eyes.
